

MORNING ANNOUNCEMENT- GROWTH MINDSET
THURSDAY, October 4, 2018

Bollinger reads

GOOD MORNING, TEAM TOPE! Take a moment to breathe in, breathe out, and settle in for a few minutes. (PAUSE)

This week's focus is on YOUR BRAIN and IT'S POWER TO GROW AND STRETCH! We learned the BLNW neuroplasticity. **Neuroplasticity** is, the ability of your brain to change and adapt in response to challenges. You can think of those neurological changes as your brains way of tuning itself to meet your needs. Because of neuroplasticity- your brain can actually change its physical structure as a result of learning. Understanding the POWER of the brain is an essential piece of developing a growth mindset. Use this new knowledge of your brain to take on ANYTHING! Face those challenges and DON'T BE AFRAID TO FAIL! WE make mistakes and we move forward.

As you walk down your path of awesomeness... DON'T BE A WIMPY GOAT—GIVE IT ALL YOU GOT!

TOPE VOCAB-

Neuroplasticity

Face challenge

Failure success

Teacher Responsibility

PRIMARY AND INTERMEDIATE- Kids with growth mindset- 1 min 54 seconds

<https://safeshare.tv/x/ss5bb60d2fc1301#>

PRIMARY or INTERMEDIATE suggestion (optional) - 7 second video (wimpy goat gives it all he's got)

https://safeshare.tv/x/DV_3qx-oBms#

ACTIVITY- (MODIFY FOR YOUR GRADE LEVEL)

T chart with failure and success or glows and grows or struggles and triumphs (whatever works!)

Give students 4 sticky notes (2 for successes and 2 for failures) 4 minutes to write/draw

Place stickies on the chart

Discuss ways growth mindset and neuroplasticity supports them

On a separate piece of paper capture ideas on how to "give it all you got?"
