

MORNING ANNOUNCEMENT- GROWTH MINDSET  
THURS, SEPTEMBER 27, 2018

Bollinger reads

GOOD MORNING TEAM TOPE! Take a moment to breathe in and breathe out and settle in for a few minutes.

Yesterday, you learned a little bit about different region of the brain and their functions. We will continue to learn about the brain throughout the year to help us understand what a growth mindset is. Understanding that your brain is powerful will help you to use the growth mindset. **In a growth mindset, people believe that their most basic abilities can be developed through dedication and hard work. It is essential that every one of us in this school understands that our intelligence and talent is constantly changing based on attitude, effort, persistence, and motivation.**

LISTEN- Nobody is born smart, we all start at zero. You are born to fail. You are born to fail so that you can learn from that failure. Also, you were born to succeed. You were born to succeed so that you can learn from your success. Both are equally essential to continuing down your path to awesome. Now that you know more about your brain, what do you notice as you watch the KHAN Academy video for the second time?

As you walk down your path of awesome, think about what failure and success mean to you.

VOCAB-

Region

Function

THE VIDEO IS 1 MINUTE 30 SECONDS.

Teacher Responsibility

**Discussion Options-**

- 1) What does the saying mean—"we all start at zero"?
- 2) Discuss the concept of failure. How should we VIEW failure? How can we use failure to help us?
- 3) What are some areas today that you want to use a growth mindset to find success in?
- 4) Make a few connections with the brain and it's "power".
