STEAM @ TOPE LEARNERS USE THEIR SUPERHUMAN POWERS TO BE EVERYDAY HEROES

GOOD MORNING STEAM @ TOPE FAMILY! Take a moment to breathe in, breathe out and settle in for a few minutes.

We are learning how STEAM @ TOPE LEARNERS can use their superhuman powers to be everyday heroes. Are you using a positive growth mindset, are you using the power of yet and are you thinking about how to make a difference?

We have talked a lot about solving problems for our communities. BUT, what about those who are closest to us? Are we making a difference for our classmates? Are we making a difference for our families? I LOVE this video about a brother and sister who have each other's backs! This big brother really is making a difference for his sister... and at the end of the video he gets very emotional and cries. Even his sister looks at him like, buddy get a grip. I however; loved the fact that he shows his true emotions. In my world, it shows just how courageous this young man truly is.

As you walk down your path of awesome, be a STEAM @ Tope learner that makes a difference! Be an everyday hero not just for your community, but for those who are nearest and dearest to your heart.

Caring for Each Other (3:06)

#### **ACTIVITY-**

How are we making a difference in our classroom or when we get home from school?

Discuss the video

Write ways that we can be an everyday hero that makes a difference at home and at school.

Why is being a hero so important? in our community, in our world and at home????
