

GOOD MORNING TOPE FAMILY! Take a moment to breathe in, breathe out and settle in for a few minutes

This month we are learning how to STEAM @ TOPE LEARNERS COLLABORATE AND CONTRIBUTE!. Two pretty powerful words...

In yesterday's announcement, we looked at the Engineer Design Process and how we can use it to help us solve problems here at this school and in our community. You started to think of ways to contribute by designing an app, much like Alex.

STEAM @ TOPE Eagles are learning to become problem solvers! It is critical that when you take on a problem, you take it on with a team. Collaboration is a key component to being more productive and successful! You can't do everything alone!

In the next few weeks, we are going to work on the first of 4 main components to help us all be learners who can collaborate and contribute! We will each begin to look at what it means to have self-awareness. Self-Awareness is being aware of the support you have around you, your strengths, your areas you can work on and how you feel.

As you walk down your path of awesomeness, begin to think about how you will be a STEAM @ TOPE LEARNER WHO COLLABORATES AND CONTRIBUTES! The first step is to build your own self-awareness OF WHO YOU ARE.

TOPE VOCAB-

Collaborate- to work together

Contribute- to personally give something in order to benefit others.

ACTIVITY-

DISCUSS THE VIDEO- what is the message? How does this relate to Self-awareness? Have students write 3 strengths/1 area to work on. Who are your supports?

Start an anchor chart by first defining COLLABORATE AND CONTRIBUTE

Draw 4 quadrants below for the 4 main components

Label the 4 quadrants self- aware, self-manage, social-awareness and social-management
